Subject: RE: Speaking Invitation: SEER Fall Meeting

Dear Mike, Wendy and Mark,

Following up on my calls to each of you this afternoon, on behalf of the American Bar Association (ABA) Section of Environment, Energy and Resources (SEER), we would like to invite you to speak at the SEER Fall Meeting in Baltimore, MD October 19-20, 2017. More specifically, we would be delighted if you would agree to participate in our distinguished panel on TSCA Implementation that is scheduled as the second session on Thursday afternoon Oct 19, from 4:15 - 5:15. I will be your moderator. The approved description for the session is reproduced below, and will give us room to work:

Reality Check: What You Need to Know About TSCA Reform Implementation. The new Toxic Substances Control Act (TSCA) is the first major piece of environmental legislation to be passed in more than 30 years. It has the potential to impact almost every business that imports, uses or manufactures chemicals and imposes significant potential liability for those operating, financing or acquiring such businesses. Listen to leading chemicals management attorneys experts explain what you, and your clients, need to know about the new TSCA. Topics will include explanation of the new foundational rules, discussion of specific chemicals under review or being regulated, as well as implications for biotech and nanotech. TSCA is no longer of interest only to chemical manufacturers. This panel will ensure you and your clients are not left behind.

Indeed, Mark has already agreed to participate. Thank you Mark, it is great to have you on board!

Although the agenda is still in preparation, you may follow this link to the SEER page for the fall meeting here: <https://shop.americanbar.org/ebus/ABAEventsCalendar/EventDetails.aspx?productId=266997867>.

Cordially yours, Martha
